Srote Named President of Association of Licensed Architects Missouri Chapter

Palatine, IL, Feb. 27, 2017 --The Association of Licensed Architects (ALA) has appointed Robert A. Srote, ALA, MBA, Principal at Schaub + Srote Architects, Kirkwood, MO, president of ALA's Missouri Chapter.

"Robert's a proven leader and we're excited about the growth potential of the Missouri Chapter," said Joanne Sullivan, ALA Executive Director. "The chapter has some great networking and continuing education programs in the works for architects interesting in being part of a dynamic professional trade association."

"I'm enthusiastic to have the opportunity to serve as Director of the ALA Missouri Board," said Srote. "The ALA provides phenomenal services to its members at an affordable cost. I hope to expand the organization's presence and membership in the local area over the coming years to broaden the positive influence of the ALA."

Srote, an accomplished architect and author, began his career in 1996, and creates unique custom residences for clients nationwide. He opened Residential Masterworks, a studio dedicated to enhancing the built environment while remaining in harmony with the natural landscape, and in 2012 merged with the Schaub Design Group, Inc. to form Schaub + Srote Architects. He is the author of *Wildfire: The Legislation that Ignited the Great Recession*, an in-depth look at the collapse of the housing and financial markets in the early 21st century.

About the Association of Licensed Architects

ALA (Association of Licensed Architects), Palatine, IL, is a national organization of architects and related professionals with a membership of nearly 1,200. Its mission is to advance the architectural profession by supporting and improving its role in the built environment through contributions to the general health, safety and welfare of the general public. ALA supports continuing education and the advancement of the art and science of architecture. For more information, visit www.alatoday.org.
